NEXTPAX CORE TUTORIAL

### Find your pmCode and enable VivreStays

Hide tutorial ^

Open this guide before verifying your code in VivreStays.

**1** PMCODE

#### Find your pmCode

1. Log in to **NextPax Core**.
2. Open **Properties** from the left menu.
3. Search for the **property name** above the property list and press **Enter**.
4. Open the **correct property**.
5. In the **General** tab, copy the **NextPax property ID**. This ID is used as the **pmCode** in VivreStays.

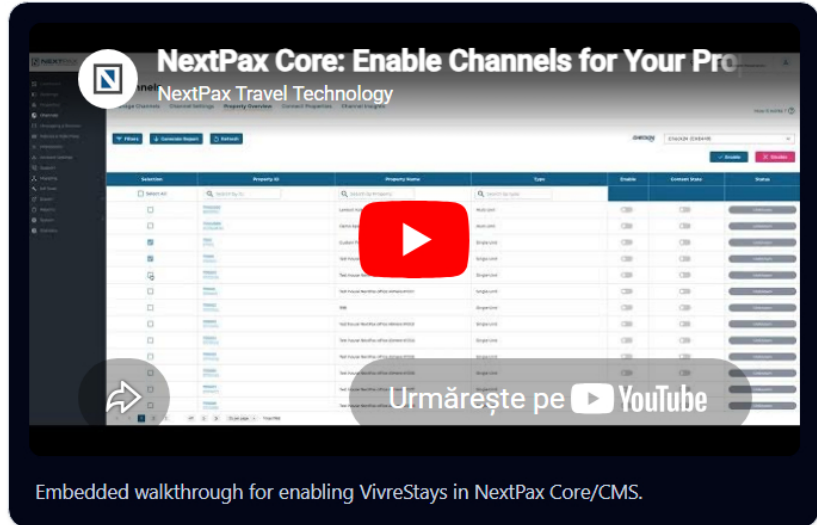

**2** CHANNEL

#### Enable VivreStays

1. Log in to **NextPax Core**.
2. Open **Channels** from the left menu.
3. Go to the **Property Overview** tab.
4. Use the dropdown at the top right to select **VivreStays**.
5. Select the **accommodations** that should be distributed to VivreStays.
6. Click **Enable** below the selected channel name.

7. Choose **Rates & Availability** only or **Full Content** in the pop-up.

8. Wait for **NextPax** to process the distribution automatically.

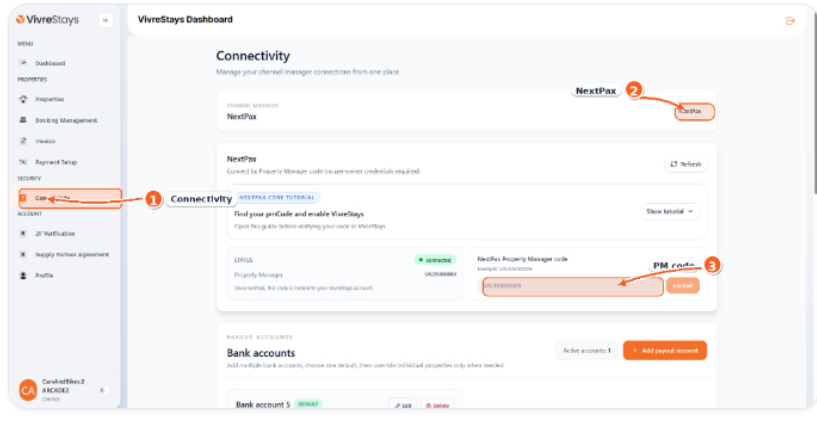

Embedded walkthrough for enabling VivreStays in NextPax Core/CMS.

### 3 VIVRESTAYS

#### Connect in VivreStays

1. In **VivreStays Dashboard**, open **Connectivity** from the left menu.
2. Select **NextPax** in the **Channel Manager** selector.
3. Paste the **NextPax pmCode** into the **NextPax Property Manager code** field.
4. Click **Verify and lock**. After verification, the code becomes **locked** to your VivreStays account.

#### STATUS

● not connected

#### Property Manager

Once verified, this code is locked to your VivreStays account.

Example: SACDS000009

SACDS000009

Verify and lock

## My listings

Search NextPax imports, sync new listings and adjust visibility without leaving the dashboard.

🔍 Search by name, address, or NextPax ID

SORT BY ↕ Default order ▾

### Auto-approve new listings

New imports go live automatically

🔄 Sync New

🔄 Activate All

Deactivate All

Use **Sync New** only for fresh imports. **Activate All** flips already imported listings to active; for specific updates use the **Sync** button in the table.

📘 **Active listings** are visible in the owner portal and channel feeds. Toggle the switch to control visibility.
